

# The Human Body: HOW IT WORKS ONLINE

Through engaging text and original videos and images, *The Human Body: How It Works Online* investigates the systems and processes that have a role in keeping the human body working, from organ systems to cells. Perfect for high school students studying human anatomy and the body's processes, this eLearning Module gives readers the information they need to understand how their bodies work. Learning Units in this eLearning Module cover everything from the circulatory and respiratory systems to the senses and human development.

## Learning Unit Chapters

Each eLearning Module is divided into Learning Units, displayed in chapters, with high-quality images, sidebars, in-text links, and dynamic citations. Support materials for each chapter are also conveniently located, allowing for seamless in-class integration. Learning Units in *The Human Body: How It Works Online* include:

- |                         |                                    |
|-------------------------|------------------------------------|
| Cells, Tissue, and Skin | The Nervous System                 |
| Human Development       | The Reproductive System            |
| The Circulatory System  | The Respiratory System             |
| The Digestive System    | The Senses                         |
| The Endocrine System    | The Skeletal and Muscular Systems. |
| The Immune System       |                                    |

Targeted, Focused  
**HEALTH  
REFERENCE  
Content**

Understanding Drugs Online

## Enriched Online Resources Engage Students on Core-curriculum Topics

### Reference Solutions Made Easy

Our new eLearning Modules provide focused, targeted coverage of core-curriculum topics. Designed for libraries and classrooms, eLearning Modules are a unique combination of our multivolume print series with rich media, including high-quality educational videos, images, instructor resources, and support materials that were created specifically to align with the content for a seamless learning experience.

### Bring Learning to Life

Students will find these online resources engaging and simple to use. Instructors, curriculum coordinators, and principals will appreciate the easy integration into classroom learning and the wide assortment of invaluable support materials and instructor resources, including activities, discussion and assessment questions, and printable materials. Librarians will be able to offer their students and patrons quick access to homework and research help.

### Engaging Online Resources for Today's Students

eLearning Modules are also excellent for distance learning, study abroad, and tutoring programs. These dynamic and compelling online resources pick up where textbooks leave off, bringing the subject matter to life. eLearning Modules are the perfect solution to every educator's goal: helping students achieve their best.

### ALSO OF INTEREST:

#### Streaming Video

Comprehensive, multi-subject streaming video subscription services providing unlimited access to 13,000 full-length videos and 207,000 video clips.

#### Online Databases

Award-winning, exclusive reference content in a variety of subject areas, perfect for any institution.

#### eBooks & Print

Core-curriculum and high-interest K-12 and reference eBook and print offerings that will become a lasting part of your library's holdings.
