- Respiratory Therapy
- Surgical Technology

400+ Titles, 2,700+ Segmented Clips, 220+ Hours of Programming

This collection will help prepare future allied health professionals for practice across a diverse range of health care settings, whether they are learning how to draw blood, administer medications, or help deliver a baby. The videos include titles from trusted producers such as **Medcom-Trainex, Elsevier, NEVCO, Center for Phlebotomy Education, Classroom Productions, InJoy Health Education,** and others.

- Use video in class or as assigned classwork to reinforce complex medical techniques outlined in a textbook
- Conveniently segmented for lecture and in-class use
- Unlimited access from any location—on campus or off
- Tablet- and mobile-friendly
- Videos can be easily added to LibGuides, distance education courses, social media platforms, and LMSs
- Captions, interactive transcripts, citations, Google Translate, and more
- Create and share playlists—use pre-made clips, full videos, or custom segments to engage students
- Public performance rights and no copyright infringement worries

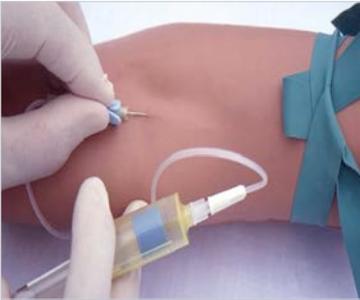

Once you find the clips you need, use the Add to Playlist tool or the embed code to provide instant access for students through your online course management system.

Use filters to find the perfect titles and clips for lectures and assignments.

ALLIED HEALTH Collection Highlights:

ELSEVIER

The Ten Commandments of Phlebotomy—proposes 10+ rules of specimen collection that must be followed without fail and why. Topics in this title

include discussions on vein selection, customer service, patient and sample identification, technique, safety, and more. Other titles on phlebotomy from Center for Phlebotomy Education include *Basic Venipuncture*, *Delivering World-Class Customer Service*, *Ending Hemolysis in the ED...and Everywhere Else*, and more.

Assessment of the Newborn—a five-part series that provides a virtual experience of newborn assessment and care through the use of footage taken in an actual birthing room and newborn nursery.

Mosby's Nursing Assistant Video Skills—an 11-part series that depicts the skills needed to become a successful nursing assistant, with live-action

demonstrations of standard procedures performed by actual nursing assistants.

Aseptic Nursing Technique at the Bedside—a four-part series that provides a comprehensive overview of aseptic technique in the patient care unit.

Cultural Diversity and Healthcare Competency—teaches health care assistants how to care for a diverse clientele by understanding their cultural differences.

Wound Care—a four-part series that teaches health care professionals how to care for wounds. It discusses physiology of wounds, assessment and documentation, types of wounds, and treatment modalities.
