32,360+ video clips, **5,555+** full-length videos—and growing!

Documentaries on the full spectrum of diseases and disorders; titles on human anatomy and physiology; investigations into public health issues; programming on nutrition and wellness; instructional films on health care and treatment; primers on careers in health and medicine—this comprehensive collection of titles covers the wide range of topics relevant to anyone studying health and medicine.

Use filters to find the perfect titles and clips for lectures and assignments.

- Unlimited access from your computer/laptop, tablet, or phone—on campus or off
- Create and share playlists—use premade clips, full videos, or custom segments to engage students
- Add a personalized video introduction to any playlist you create
- Upload the proprietary digital video content you already own and use (like lectures, seminars, etc.) to the platform
- Captions, interactive transcripts, citations, Google Translate, and more
- New videos added at no additional cost
- Videos can be easily added to LibGuides, distance education courses, social media platforms, and LMSs such as D2L, Canvas, Moodle, and others
- Public performance rights and no copyright infringement
- Keyword tags for all content, linking to related material

HEALTH & MEDICINE STREAMING VIDEO COLLECTION

All titles are segmented into short, pedagogical clips, ideal for intermittent use during classroom lectures. For classwork viewing, students can choose to watch an entire film without interruption. Titles within the collection are sorted across distinct, browsable subject categories, enabling refined searches for available titles in specific topic areas.

Collection Highlights:

World Medicine

A 40-episode look at ancestral medical practices from all over the planet and the lives of the women and men who care for others.

EXCLUSIVE

Reinventing Health Care— A Fred Friendly Seminar

A panel of who's who in the health care industry explores the dilemmas and urgently needed policy decisions surrounding what has become, literally, a life-or-death issue.

Multiple episodes of the BBC's acclaimed *Horizon* series, including *Immortal?: A Horizon Guide to Aging*; *Diet: A Look at Processed Food, Nutrition, and Obesity in the 20th Century*; *Obsessive Compulsive Disorder*; *The Truth about Fat, Sex, A Horizon Guide*; *E-Cigarettes: Miracle or Menace?* and more.

EXCLUSIVE

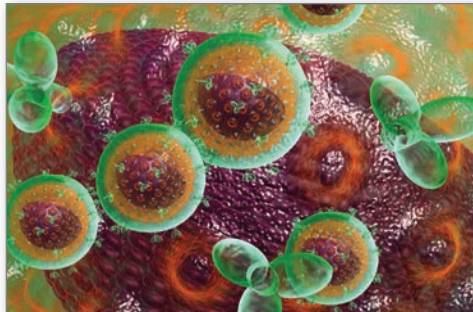

Healthy Eating: A Guide to Nutrition

A five-part series that covers basic nutrition, weight management, eating disorders, nutrition for athletes, and food safety and disease prevention.

EXCLUSIVE

The People's Health

Through six powerful observational films based on compelling human dramas, explore major health issues facing the world today, such as what makes a good doctor, how to work with big pharma, and how to provide affordable care to the poor.

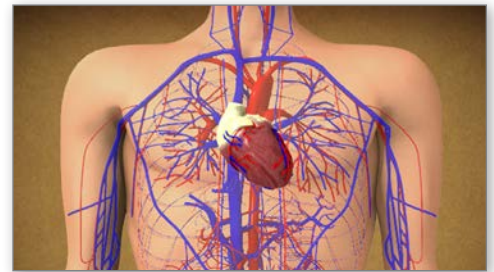

Kill or Cure, Series 1-4

A 48-part series that focuses on a different disease and the attempts to develop treatments that are effective and affordable for the world's poor in each episode.

The Trouble with Chicken

Investigates the complex world of food safety through interviews with local and national public health officials as well as victims and a top-level poultry industry executive. This PBS documentary reveals the discrepancies that exist when it comes to foodborne bacteria such as *Salmonella*.

EXCLUSIVE

The Human Body: How It Works

Comprehensive nine-part series that details the inner and outer workings of the human machine.

AWARD WINNER

Aged Care

A six-part allied health series on how to manage common and serious health problems among elderly populations.

Titles that address the U.S. opiate epidemic, including *Chasing Heroin*; *Breaking Point: Heroin in America*; *Heroin: Cape Cod, USA*; *Oxyana*; and *The Severe Dangers of Opioid Painkiller Fentanyl*.

Ken Burns Presents: Cancer—The Emperor of All Maladies

Six-hour PBS series that interweaves a sweeping historical narrative with intimate stories about contemporary patients and an investigation into the latest scientific breakthroughs that may have brought us to the brink of lasting cures.

Several titles on alcohol use and abuse, including *Louis Theroux: Drinking to Oblivion*; *The Truth about Alcohol*; and *Is Binge Drinking Really That Bad?*
